Question: 1	
Which Symantec Endpoint Protection 12.1 protection technology prolayers against zero-day network attacks?	ovides the primary protection
A. SONAR B. Client Firewall C. Intrusion Prevention D. System Lockdown	
	Answer: C
Question: 2	
According to Symantec, what is a botnet?	
A. systems infected with the same virus strain B. groups of systems performing remote tasks without the users' knowl C. groups of computers configured to steal credit card records D. compromised systems opening communication to an IRC channel	edge
	Answer: B
Question: 3	
A financial company has a security policy that prevents banking system to the internet. Which Symantec Endpoint Protection 12.1 protection from working on the company's workstations?	_
A. Insight B. Application and Device Control C. Network Threat Protection D. LiveUpdate	
	Answer: A
Question: 4	

In addition to performance improvements, which two benefits does Insight provide? (Select two.)

- A. reputation scoring for documents
- B. zero-day threat detection
- C. protection against system file modifications
- D. false positive mitigation
- E. blocking of malicious websites

	Answer: BD	
Question: 5		
How does the Intrusion Prevention System add an additional layer of Protection?	protection to Network Threat	
A. It inspects the TCP packet headers and tracks the sequence number. B. It performs deep packet inspection, reading the packet headers, and C. It examines TCP/IP traffic from the application and traces the source D. It monitors IP datagrams for abnormalities.	·	
	Answer: B	
Question: 6		
The fake antivirus family "PC scout" infects systems with a similar method regardless of its variant. Which SONAR sub-feature can block new variants of the same family, based on sequence of events?		
A. artificial intelligence B. behavioral heuristic C. human authored signatures D. behavioral policy lockdown		
	Answer: C	
Question: 7		
Drive-by downloads are a common vector of infections. Some of the bypass traditional defense mechanisms. Which Symantec Endpoint technology blocks such obfuscated attacks?		
A. SONAR B. Bloodhound heuristic virus detection C. Client Firewall D. Browser Intrusion Prevention		
	Answer: D	
	Aliswei. D	
Question: 8		

Which Symantec Endpoint Protection 12.1 defense mechanism provides protection against worms like W32.Silly.FDC, which propagate from system to system through the use of autorun.inf files?

A. Application Control

Question: 12

B. SONAR C. Client Firewall D. Exceptions	
	Answer: A
Question: 9	
A company is experiencing a malware outbreak. The company deploys \$12.1, with only Virus and Spyware Protection, Application and Deprevention technologies. Why would Intrusion Prevention be unable from an attacking host?	evice Control, and Intrusion
A. Intrusion Prevention needs the firewall component to block all trafficB. Intrusion Prevention blocks the attack only if the administrator wroteC. Intrusion Prevention definitions are out-of-date.D. Intrusion Prevention is set to log only.	
	Answer: A
Question: 10 Which Symantec Endpoint Protection 12.1 component uses reputation to	to evaluate a file?
A. Shared Insight Cache serverB. Symantec Endpoint Protection clientC. Symantec Endpoint Protection ManagerD. LiveUpdate Administrator server	
	Answer: B
Question: 11	
Which Symantec Endpoint Protection 12.1 component provides services of virtual client scanning?	s to improve the performance
A. Shared Insight Cache server B. LiveUpdate Administrator server C. Symantec Protection Center D. Group Update Provider	
	Answer: A

How many Symantec Endpoint Protection Managers can be connected to an embedded database?

B. 2 C. 5 D. 10 Answer: A Question: 13 Which component is required in order to run Symantec Endpoint Protection 12.1 protection technologies? A. Symantec Endpoint Protection Manager B. Symantec Endpoint Protection client C. LiveUpdate Administrator server D. Symantec Protection Center Answer: B Question: 13 Which Symantec Endpoint Protection 12.1 component provides single-sign-on to the Symantec Endpoint Protection Manager and other products, along with cross-product reporting? A. Symantec Reporting server B. Symantec Security Information Manager C. IT Analytics D. Symantec Protection Center Question: 14 Which Symantec Endpoint Protection 12.1 component uses Sybase SQL Anywhere? A. Symantec Endpoint Protection Manager embedded database B. Symantec Endpoint Protection Manager remote database C. LiveUpdate Administrator server D. Shared Insight Cache server Answer: A	A. 1	
D.10 Question: 13 Which component is required in order to run Symantec Endpoint Protection 12.1 protection technologies? A. Symantec Endpoint Protection Manager B. Symantec Endpoint Protection client C. LiveUpdate Administrator server D. Symantec Protection Center Answer: B Question: 13 Which Symantec Endpoint Protection 12.1 component provides single-sign-on to the Symantec Endpoint Protection Manager and other products, along with cross-product reporting? A. Symantec Reporting server B. Symantec Security Information Manager C. IT Analytics D. Symantec Protection Center Question: 14 Which Symantec Endpoint Protection 12.1 component uses Sybase SQL Anywhere? A. Symantec Endpoint Protection Manager embedded database B. Symantec Endpoint Protection Manager remote database C. LiveUpdate Administrator server D. Shared Insight Cache server Answer: A	B. 2	
Answer: A Question: 13 Which component is required in order to run Symantec Endpoint Protection 12.1 protection technologies? A. Symantec Endpoint Protection Manager B. Symantec Endpoint Protection client C. LiveUpdate Administrator server D. Symantec Protection Center Answer: B Question: 13 Which Symantec Endpoint Protection 12.1 component provides single-sign-on to the Symantec Endpoint Protection Manager and other products, along with cross-product reporting? A. Symantec Reporting server B. Symantec Security Information Manager C. IT Analytics D. Symantec Protection Center Question: 14 Which Symantec Protection Center Answer: D Answer: D Answer: D Answer: D Answer: D Answer: A Symantec Endpoint Protection Manager embedded database B. Symantec Endpoint Protection Manager remote database C. LiveUpdate Administrator server D. Shared Insight Cache server Answer: A		
Which component is required in order to run Symantec Endpoint Protection 12.1 protection technologies? A. Symantec Endpoint Protection Manager B. Symantec Endpoint Protection client C. LiveUpdate Administrator server D. Symantec Protection Center Answer: B Question: 13 Which Symantec Endpoint Protection 12.1 component provides single-sign-on to the Symantec Endpoint Protection Manager and other products, along with cross-product reporting? A. Symantec Reporting server B. Symantec Security Information Manager C. IT Analytics D. Symantec Protection Center Answer: D Question: 14 Which Symantec Endpoint Protection 12.1 component uses Sybase SQL Anywhere? A. Symantec Endpoint Protection Manager embedded database B. Symantec Endpoint Protection Manager remote database C. LiveUpdate Administrator server D. Shared Insight Cache server Answer: A	D. 10	
Which component is required in order to run Symantec Endpoint Protection 12.1 protection technologies? A. Symantec Endpoint Protection Manager B. Symantec Endpoint Protection client C. LiveUpdate Administrator server D. Symantec Protection Center Answer: B Question: 13 Which Symantec Endpoint Protection 12.1 component provides single-sign-on to the Symantec Endpoint Protection Manager and other products, along with cross-product reporting? A. Symantec Reporting server B. Symantec Security Information Manager C. IT Analytics D. Symantec Protection Center Answer: D Question: 14 Which Symantec Endpoint Protection 12.1 component uses Sybase SQL Anywhere? A. Symantec Endpoint Protection Manager embedded database B. Symantec Endpoint Protection Manager remote database C. LiveUpdate Administrator server D. Shared Insight Cache server Answer: A	-	
Which component is required in order to run Symantec Endpoint Protection 12.1 protection technologies? A. Symantec Endpoint Protection Manager B. Symantec Endpoint Protection client C. LiveUpdate Administrator server D. Symantec Protection Center Answer: B Question: 13 Which Symantec Endpoint Protection 12.1 component provides single-sign-on to the Symantec Endpoint Protection Manager and other products, along with cross-product reporting? A. Symantec Reporting server B. Symantec Security Information Manager C. IT Analytics D. Symantec Protection Center Question: 14 Which Symantec Endpoint Protection 12.1 component uses Sybase SQL Anywhere? A. Symantec Endpoint Protection Manager embedded database B. Symantec Endpoint Protection Manager remote database C. LiveUpdate Administrator server D. Shared Insight Cache server Answer: A	-	Answer: A
Which component is required in order to run Symantec Endpoint Protection 12.1 protection technologies? A. Symantec Endpoint Protection Manager B. Symantec Endpoint Protection client C. LiveUpdate Administrator server D. Symantec Protection Center Answer: B Question: 13 Which Symantec Endpoint Protection 12.1 component provides single-sign-on to the Symantec Endpoint Protection Manager and other products, along with cross-product reporting? A. Symantec Reporting server B. Symantec Security Information Manager C. IT Analytics D. Symantec Protection Center Question: 14 Which Symantec Endpoint Protection 12.1 component uses Sybase SQL Anywhere? A. Symantec Endpoint Protection Manager embedded database B. Symantec Endpoint Protection Manager remote database C. LiveUpdate Administrator server D. Shared Insight Cache server Answer: A		
technologies? A. Symantec Endpoint Protection Manager B. Symantec Endpoint Protection client C. LiveUpdate Administrator server D. Symantec Protection Center Answer: B Question: 13 Which Symantec Endpoint Protection 12.1 component provides single-sign-on to the Symantec Endpoint Protection Manager and other products, along with cross-product reporting? A. Symantec Reporting server B. Symantec Security Information Manager C. IT Analytics D. Symantec Protection Center Question: 14 Which Symantec Endpoint Protection 12.1 component uses Sybase SQL Anywhere? A. Symantec Endpoint Protection Manager embedded database B. Symantec Endpoint Protection Manager remote database C. LiveUpdate Administrator server D. Shared Insight Cache server Answer: A	Question: 13	
B. Symantec Endpoint Protection client C. LiveUpdate Administrator server D. Symantec Protection Center Answer: B Question: 13 Which Symantec Endpoint Protection 12.1 component provides single-sign-on to the Symantec Endpoint Protection Manager and other products, along with cross-product reporting? A. Symantec Reporting server B. Symantec Security Information Manager C. IT Analytics D. Symantec Protection Center Answer: D Question: 14 Which Symantec Endpoint Protection 12.1 component uses Sybase SQL Anywhere? A. Symantec Endpoint Protection Manager embedded database B. Symantec Endpoint Protection Manager remote database C. LiveUpdate Administrator server D. Shared Insight Cache server Answer: A		Protection 12.1 protection
Answer: B Question: 13 Which Symantec Endpoint Protection 12.1 component provides single-sign-on to the Symantec Endpoint Protection Manager and other products, along with cross-product reporting? A. Symantec Reporting server B. Symantec Security Information Manager C. IT Analytics D. Symantec Protection Center Answer: D Question: 14 Which Symantec Endpoint Protection 12.1 component uses Sybase SQL Anywhere? A. Symantec Endpoint Protection Manager embedded database B. Symantec Endpoint Protection Manager remote database C. LiveUpdate Administrator server D. Shared Insight Cache server Answer: A	B. Symantec Endpoint Protection clientC. LiveUpdate Administrator server	
Which Symantec Endpoint Protection 12.1 component provides single-sign-on to the Symantec Endpoint Protection Manager and other products, along with cross-product reporting? A. Symantec Reporting server B. Symantec Security Information Manager C. IT Analytics D. Symantec Protection Center Answer: D Question: 14 Which Symantec Endpoint Protection 12.1 component uses Sybase SQL Anywhere? A. Symantec Endpoint Protection Manager embedded database B. Symantec Endpoint Protection Manager remote database C. LiveUpdate Administrator server D. Shared Insight Cache server Answer: A	D. Symantec Protection Center	
Which Symantec Endpoint Protection 12.1 component provides single-sign-on to the Symantec Endpoint Protection Manager and other products, along with cross-product reporting? A. Symantec Reporting server B. Symantec Security Information Manager C. IT Analytics D. Symantec Protection Center Answer: D Question: 14 Which Symantec Endpoint Protection 12.1 component uses Sybase SQL Anywhere? A. Symantec Endpoint Protection Manager embedded database B. Symantec Endpoint Protection Manager remote database C. LiveUpdate Administrator server D. Shared Insight Cache server Answer: A		Answer: R
Which Symantec Endpoint Protection 12.1 component provides single-sign-on to the Symantec Endpoint Protection Manager and other products, along with cross-product reporting? A. Symantec Reporting server B. Symantec Security Information Manager C. IT Analytics D. Symantec Protection Center Answer: D Question: 14 Which Symantec Endpoint Protection 12.1 component uses Sybase SQL Anywhere? A. Symantec Endpoint Protection Manager embedded database B. Symantec Endpoint Protection Manager remote database C. LiveUpdate Administrator server D. Shared Insight Cache server Answer: A		Aliswei. D
Endpoint Protection Manager and other products, along with cross-product reporting? A. Symantec Reporting server B. Symantec Security Information Manager C. IT Analytics D. Symantec Protection Center Answer: D Question: 14 Which Symantec Endpoint Protection 12.1 component uses Sybase SQL Anywhere? A. Symantec Endpoint Protection Manager embedded database B. Symantec Endpoint Protection Manager remote database C. LiveUpdate Administrator server D. Shared Insight Cache server Answer: A	Question: 13	
Question: 14 Which Symantec Endpoint Protection 12.1 component uses Sybase SQL Anywhere? A. Symantec Endpoint Protection Manager embedded database B. Symantec Endpoint Protection Manager remote database C. LiveUpdate Administrator server D. Shared Insight Cache server Answer: A	Endpoint Protection Manager and other products, along with cross-prod A. Symantec Reporting server B. Symantec Security Information Manager C. IT Analytics	
Which Symantec Endpoint Protection 12.1 component uses Sybase SQL Anywhere? A. Symantec Endpoint Protection Manager embedded database B. Symantec Endpoint Protection Manager remote database C. LiveUpdate Administrator server D. Shared Insight Cache server Answer: A		Answer: D
A. Symantec Endpoint Protection Manager embedded database B. Symantec Endpoint Protection Manager remote database C. LiveUpdate Administrator server D. Shared Insight Cache server Answer: A	Question: 14	
B. Symantec Endpoint Protection Manager remote database C. LiveUpdate Administrator server D. Shared Insight Cache server Answer: A	Which Symantec Endpoint Protection 12.1 component uses Sybase SQL	Anywhere?
	B. Symantec Endpoint Protection Manager remote database C. LiveUpdate Administrator server	
Question: 15	- -	Answer: A
	Question: 15	

Which Symantec Endpoint Protection 12.1 component improves performance because known good

files are skipped?

- A. LiveUpdate Administrator server
- B. Group Update Provider
- C. Shared Insight Cache server
- D. Central Quarantine server

Answer: C
