Question: 1

Which type of virtual machines can an existing pool contain when cloning an Automated Desktop Pool from an existing pool?

A. Instant clones
B. Manual desktops
C. Linked clones
D. RDS desktops

Answer: C

Question: 2

An administrator needs to add some files to each user's writable volume.
What is the recommended procedure to accomplish this?

A. Manually mount each user's volume to a temporary virtual machine and copy the files into the volume.
B. Create a .zip file containing the files that need to be placed in the user's volumes. Select Volumes >
Writables > Update Writables and select the .zip file.
C. Place the files on a central file server and send the users an email asking them to copy the files to their disk when they log in.
D. Create a .zip file containing the file that need to be placed in the users' volumes. Export the VMDK file to VHD. Merge the zip file to update, and then upload.

Answer: D
