Implementing Cisco IOS Unified Communications Part 2 (IUC2)

- C. Original Called Number
- D. Original Redirect Number
- E. Forward Redirect Number

Answer: A

QUESTION: 72

Which two installations must be completed to allow third party software to interact with the Cisco Unified Communications Manager Express system through TAPI Lite? (Choose two.)

- A. the files in the Cisco IOS TSP file on the same Windows PC where the software is installed
- B. the Cisco IOS TSP on the same Windows PC where the software is installed and on all remotetele worker PCs
- C. the files in the Cisco IOS TSP file on all Windows PCs on the LAN
- D. the Cisco TAPILite files on the same Windows PC where the software is installed
- E. both the Cisco IOS TSP and TAPILite files on all Windows PCs on the LAN

Answer: A,D

QUESTION: 73

You work as an administrator at Your company. You study the exhibit carefully. The Greene Supply Company is integrating Cisco Unified Call Manager Express into a SIP network. Which two statements are accurate? (Choose two.)

Exhibit:

- A. Use the notify based DTMF relay mechanism that is proprietary to Cisco.
- B. SIP support in dial peers is a Cisco IOS function
- C. Use either the notify based DTMF relay mechanism that is proprietary to Cisco or the RFC based DTMF relay.
- D. The SIP server must be configured for the E.164 numbers that are going to register with the Cisco Call Manager Express database.
- E. SIP support in Cisco IOS is a function of localized call processing integrated with Cisco Unity Express

Answer: B,C

QUESTION: 74

Your IP telephony manager wants you to configure an FXS port on a voice enabled router with these requirements:

- 1) It supports ground start signaling
- 2) Calling name is James Smith
- 3) Calling number is 408 555 1212
- 4) Ring frequency is 25hz
- 5) Ring cadence is for Germany

Which configuration will meet these requirements?

- A. voice port 1/0/0 signal ground start cp tone Dering frequency 25 station id name James Smith station id number 4085551212
- B. voice port 1/0/0 signal ground start cadence Germany frequency 25 station id name James Smith station id number 4085551212
- C. voice port 1/0/0 description extension 555 1212, name "James Smith" signal ground start ring cadence Dering frequency 25
- D. voice port 1/0/0 description extension 555 1212, name "James Smith" ring cadence Germany ring frequency 25 station id name James Smith station id number 5551212

Answer: A

QUESTION: 75

You work as an administrator at Your company. You study the exhibit carefully. The Saratoga Soft ball League is setting up Call Transfer for its Cisco Unified Call Manager Express solution, which uses version 4.0. The network supports the H.450 standards. What will be used to execute the transfer?

```
SaratogaSL(config-telephony-service)#transfer-system blind
```

- A. H.450.2 standard

- B. Tcl script
- C. hairpin routing
- D. proprietary Cisco method
- E. H.450.3 standard

Answer: D

QUESTION: 76

Which two steps need to be configured on the Cisco Unified Call Connector Server using the Server Administration Wizard to use the Single Number Reach feature? (Choose two.)

- A. Select the mobilityephones previously configured in the Cisco Unified Communications Manager Express.
- B. Set up ephone pools for the Dial InAccess feature
- C. Assign ephones to the ephone pools that will be used by the Mid Call features
- D. Configure Dial InAccess system parameters
- E. Configure user contact information including the voice mailbox and Tel PIN

Answer: A,E

QUESTION: 77

Acme Booster Corporation has a corporate policy stating that all routing devices will have their configurations backed up to a corporate server on a weekly basis. Their Cisco Unity Express module is a component of the Cisco Unified Communications Manager Express device. Which three parameters ensure successful backup of the Cisco Unity Express module configuration? (Choose three.)

- A. The Cisco Unity Express module must be in an offline mode prior to instituting the backup
- B. An FTP server must be present and available to the Cisco Unity Express module.
- C. The Cisco Unity Express module must have read and write permissions on the backup server directory.
- D. An FTP server must be present and available to the Cisco Unity Express module.
- E. The Cisco Unity Express module must have modify permissions on the backup server directory
- F. The Cisco Unity Express module must copy the configuration and messages to separate directories on the backup server

Answer: A,B,C

QUESTION: 78

Which configurations must be performed to enable IMAP integration for voice mail?

- A. The IMAP service must be enabled on Cisco Unity Express and a group name with privilege vm imap must be configured on Cisco Unity Express
- B. The IMAP service must be enabled on Cisco Unity Express and Cisco Unified Communications Manager Express and a group name with privilege vm imap must be configured on Cisco Unity Express
- C. The IMAP service must be enabled on the Cisco Unified Communications Manager Express and a group name with privilege vm imap must be configured on Cisco Unity Express
- D. The IMAP service must be enabled on Cisco Unified Communications Manager Express and a group name with privilege vm imap must be configured on Cisco Unified Communications Manager Express.
- E. The IMAP service must be enabled on Cisco Unity Express and a group name with privilege vm imap must be configured on Cisco Unified Communications Manager Express

Answer: A

QUESTION: 79

You work as an administrator at Your company. You study the exhibit carefully. You have been asked to write a script that starts by checking if the call was made during business hours. Which two main steps must be added as a minimum after the Business Hours step is added? Exhibit:

- A. Define a variable for the schedule. The value of the schedule points to the actual calendar configuration saved on Cisco Unity Express

- B. Define a variable for the schedule. The value for the schedule has a Go to step that points to Time of Day and Day of Week
- C. Define a variable for the schedule. The value of the schedule points to the actual calendar saved on Cisco Unity Express for Day of Week only. The Time of Day step must be added to the script.
- D. Add Time of Day first and then Day of week next.
- E. Add Day of Week first and then Time of Day next.

Answer: A

QUESTION: 80

You work as an administrator at Your company. You study the exhibit carefully. When dial peer 22001 or 22002 is matched, which is the correct call behavior?
Exhibit:

```

voice translation-rule 1
 rule 1 /^22../ /1202555&/
 |
voice translation-profile pstn-out
 translate called 1
 |
voice-port 0/0/0
 translation-profile outgoing pstn-out
 |
voice-port 0/2/0:23
 translation-profile outgoing pstn-out
 |
dial-peer voice 2200 voip
 destination-pattern 22..
 session target ipv4:10.2.3.1
 |
dial-peer voice 22001 pots
 preference 1
 destination-pattern 22..
 port 0/2/0:23
 |
dial-peer voice 22002 pots
 preference 2
 destination-pattern 22..
 port 0/0/0

```

- A. Call fails for dial peer 22001 because prefix 22 is not configured. Call succeeds for dial peer 22002 because prefix 22 is not required
- B. Call succeeds for both dial peers
- C. The voice translation profile command must be configured on both dial peers for the call to be successful.
- D. Call fails because prefix 22 needs to be added, otherwise 22 is consumed by the router
- E. Call gets through for dial peer 22001, but fails for 22002 unless prefix 22 is configured

Answer: B
