Version: 11.0

Question: 1

Note: This question is part of a series of questions that use the same or similar answer choices. An answer choice may be correct for more than one question in the series. Each question is independent of the other questions in this series. Information and details provided in a question apply only to that question.

You represent a SAM partner.

A client must consolidate their IT departments into a single business unit. The client was previously assessed in the Microsoft SAM Optimization Model (SOM) key competencies and assigned a SAM maturity level.

The client reclaims unused software licenses from all departments.

You need to ensure that the client progresses to the next SOM level in the Retirement Process key competency.

What should you do?

- A. Purchase software only from approved vendors.
- B. Publish software deployment reports to stakeholders.
- C. Use information provided by a software publisher.
- D. Use software metadata generated by the client.
- E. Deploy only approved software.
- F. Formulate a retirement process.
- G. Create an inventory of deployed assets.
- H. Maintain updated records of deployed assets.

Answer: H

Question: 2

Note: This question is part of a series of questions that use the same or similar answer choices. An answer choice may be correct for more than one question in the series. Each question is independent of the other questions in this series. Information and details provided in a question apply only to that question.

You represent a SAM partner.

A client must consolidate their IT departments into a single business unit. The client was previously assessed in the Microsoft SAM Optimization Model (SOM) key competencies and assigned a SAM maturity level.

You need to ensure that unused Microsoft Office 365 licenses are reclaimed.

What should you do?

- A. Purchase software only from approved vendors.
- B. Publish software deployment reports to stakeholders.
- C. Use information provided by a software publisher.
- D. Use software metadata generated by the client.
- E. Deploy only approved software.
- F. Formulate a retirement process.
- G. Create an inventory of deployed assets.
- H. Maintain updated records of deployed assets.

Answer: C

Question: 3

Note: This question is part of a series of questions that use the same or similar answer choices. An answer choice may be correct for more than one question in the series. Each question is independent of the other questions in this series. Information and details provided in a question apply only to that question.

You represent a SAM partner.

A client must consolidate their IT departments into a single business unit. The client was previously assessed in the Microsoft SAM Optimization Model (SOM) key competencies and assigned the maturity level of Basic.

Users install software on their own from multiple locations.

You need to help the client progress to the next maturity level.

What should you do?

- A. Purchase software only from approved vendors.
- B. Publish software deployment reports to stakeholders.
- C. Use information provided by a software publisher.
- D. Use software metadata generated by the client.
- E. Deploy only approved software.
- F. Formulate a retirement process.
- G. Create an inventory of deployed assets.
- H. Maintain updated records of deployed assets.

Answer: E

Question: 5

An organization is implementing a SAM program. The organization is focused on achieving Tier 1 of the ISO 19770-1 specification.

You need to verify that contracts are reported on and inventoried.

What should you include in the report?

- A. the last reported hardware inventory date
- B. any approved exceptions to the contracts
- C. contracts that do not match billing statements
- D. the last reported software inventory date

Answer: D

Question: 6

HOTSPOT

An organization implements a SAM program and collects software inventories on a defined schedule. You need to ensure that software identification processes meet ISO 19770-1 Tier 4 specifications.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.
NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
Data collected during software inventory processes must include specific software versions.	<input type="radio"/>	<input type="radio"/>
Data collected during software inventory processes must include proof of license documentation.	<input type="radio"/>	<input type="radio"/>
Data collected during software inventory processes must include software usage details and the physical location of the hardware on which software is installed.	<input type="radio"/>	<input type="radio"/>
Answer:		

Answer Area

Statement	Yes	No
Data collected during software inventory processes must include specific software versions.	<input checked="" type="radio"/>	<input type="radio"/>
Data collected during software inventory processes must include proof of license documentation.	<input checked="" type="radio"/>	<input type="radio"/>
Data collected during software inventory processes must include software usage details and the physical location of the hardware on which software is installed.	<input checked="" type="radio"/>	<input type="radio"/>

Question: 7

You have a report that contains hardware inventory data for a customer. The customer purchases upgrade licenses for Microsoft Office installations. All computers run the most up-to-date version of Office. You need to ensure that all upgrade licenses are in compliance. What should you do?

A. Review all Certificates of Authenticity (COAs).

- B. Generate a Microsoft License Advisor (MLA) report.
- C. Assign each upgrade license to a valid base license.
- D. Compare the inventory to the upgrade licenses.

Answer: C

Question: 8

DRAG DROP

Your organization defines SAM policies. The company purchases several tools but has not implemented the tools.

The organization owns 50 Microsoft Project 2016 licenses.

You need to determine the number of Project instances that are installed. You must identify and uninstall unused instances of Project.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Run software metering reports.

Implement System Center Configuration Manager (ConfigMgr) and deploy the agent to all corporate computers.

Configure the Software Metering feature.

Implement Microsoft Intune and deploy the agent to all corporate computers.

Implement Microsoft Operations Management Suite (OMS).

Run a license installation report.

Answer Area

Answer:

Actions

Run software metering reports.

Implement System Center Configuration Manager (ConfigMgr) and deploy the agent to all corporate computers.

Configure the Software Metering feature.

Implement Microsoft Intune and deploy the agent to all corporate computers.

Implement Microsoft Operations Management Suite (OMS).

Run a license installation report.

Answer Area

Implement System Center Configuration Manager (ConfigMgr) and deploy the agent to all corporate computers.

Configure the Software Metering feature.

Run software metering reports.

Question: 9

DRAG DROP

You are an IT asset manager for an organization. You generate a software inventory report.

You must implement a SAM verification process for the software inventory.

You need to determine if the organization has purchased the right number of licenses for its assets.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

NOTE: More than one order of answer choices is correct. You will receive credit for any of the correct orders you select.

Actions

- Reconcile purchasing records with inventory records.
- Find purchasing records for all installed software.
- Perform an inventory of the installed software.
- Create a list of approved vendors.

Answer Area

Answer:

Actions

- Reconcile purchasing records with inventory records.
- Find purchasing records for all installed software.
- Perform an inventory of the installed software.
- Create a list of approved vendors.

Answer Area

- Perform an inventory of the installed software.
- Find purchasing records for all installed software.
- Reconcile purchasing records with inventory records.

Question: 10

A SAM partner plans to review the existing SAM implementation for an organization. You need to collect inventory information and verify license compliance for installed Microsoft products. What should you install?

- A. Windows Intune
- B. Microsoft Assessment and Planning Toolkit (MAP)
- C. System Center Configuration Manager (ConfigMgr)
- D. Microsoft Desktop Optimization Pack (MDOP)

Answer: B
