Version: 7.0

Question: 1

What is the annotation for local interface?

- A. @local
- B. @localInterface
- C. @Interface
- D. @ejbLocal

Answer: A

Question: 2

Which two are Session Bean interfaces? (Choose two.)

- A. local interface
- B. remote interface
- C. provider interface
- D. external interface

Answer: A, B

Question: 3

A developer needs to check the state of one of the JSF Managed Beans when an application is paused. Although all Managed Beans (and other scoped objects) can be found by looking at the FacesContext object available in the Variables view, finding the objects this way can be difficult and time consuming. What is the simplest way for a developer to check the state of scoped objects and view attributes?

- A. create matches for scoped objects and view attributes and view the values at the Expression window
- B. print the report of the scoped objects and view attributes, then filter the scoped object out of the list
- C. execute the pauseTime.bat under the install_root/eclipse/plugin-ins/scopedValue, which will print the values of the scoped objects and view attributes
- D. enable the runtime JVMPI values for the variables

Answer: A

Question: 4

A developer needs to debug an application. What can the developer do to get the debug perspective

on Rational Application Developer?

- A. select Window -> Open Perspective -> (Other) -> Debug
- B. select Window -> New Perspective -> Open -> Debug
- C. select Window -> Debug
- D. select Window -> Application -> Open -> Debug

Answer: A

Question: 5

What is an example of an application component type?

- A. Applet
- B. Web Module
- C. Resource Adapter
- D. Deployment Descriptor

Answer: A

Question: 6

Web 2.0 technologies improve the user interface of web-based applications and RAD8 provides support for several of these technologies. Which two technologies supported by RAD8 are provided to make Web 2.0 easier? (Choose two.)

- A. Dojo Javascript library
- B. Web Security Editor
- C. Ajax Proxy
- D. Dynamic Page Template support (Tiles)

Answer: A, C
