A. Virtual IP (VIP) is available.
B. It supports up to two devices.
C. It supports up to four devices.
D. External load balancing is preferred.

Answer: C, D

Question: 2

What is the function of the smart caching setting within a Web caching policy?

A. to send the cache control compress header to the client
B. to remove the cache control headers from the origin server
C. to not modify the cache control header from the origin server
D. to send the appropriate cache control header based on Web content.

Answer: D

Question: 3

You have configured RADIUS authentication on the Junos Pulse Secure Access Service. Users report that their authentication is rejected. The RADIUS administrator reports that the RADIUS server requires a specific attribute that identifies the Junos Pulse Secure Access Service on the RADIUS server. In the Admin UI, which configuration parameter will address this issue?

A. Name
B. NAS-Identifier
C. RADIUS Server
D. Shared Secret

Answer: B

Question: 4

What are three benefits that resource profiles provide over resource policies? (Choose three.)

A. Resource profiles provide automatic mapping of users to roles.
B. Resource profiles provide a simplified process for creating bookmarks and resource policies.
C. One profile can be assigned to multiple roles.
D. Resource options can be customized for each profile.

E. Resource profiles provide a simplified process for configuring applications such as VPN tunneling.

Answer: B, C, D

Question: 5

You must deploy VPN tunneling using Network Connect to multiple Microsoft Windows devices. Due to access restrictions, the users do not have permission to install WSAM. Which component resolves this issue?

A. Juniper Installer Service
B. Host Checker
C. third-party integrity measurement verifier
D. Windows Secure Application Manager scriptable launcher

Answer: A

Question: 6

You want to use ESP for your VPN Tunneling transport mechanism. Which port must you have open on your firewall to the Junos Pulse Secure Access Service in a default configuration?

A. UDP 500
B. TCP 500
C. UDP 4500
D. TCP 4500

Answer: C

Question: 7

Users report that they cannot download a PowerPoint presentation when accessing a Web site using basic Web access. Which resource policy in the Admin UI will resolve this issue?

A. Selective Rewrite Policy
B. Web Caching Policy
C. Web Proxy Policy
D. Single Sign-On Policy

Answer: B

Question: 8

Which two access transport protocols are used with Junos Pulse for an Apple OS X computer? (Choose two.)

A. ESP
B. SSH
C. SSL
D. IKEv2

Answer: A, C

Question: 9

What would be used to configure the management port on the MAG4610 Junos Pulse Gateway?

A. USB port
B. custom scripts
C. serial console
D. Admin UI

Answer: D

Question: 10

What are three ways a Junos Pulse connection is initiated to a Junos Pulse Secure Access Service? (Choose three.)

A. The connection is initiated when the Web browser requires that a VPN tunnel be established.
B. The connection is initiated after the user signs in to the PC.
C. The user manually initiates a connection.
D. The connection is initiated after the PC starts.
E. The connection is initiated only if application acceleration is enabled.

Answer: B, C, D

Question: 11

You are asked to define role settings for Windows file bookmarks with a certain set of access policies. In the Admin UI, which two Windows file restrictions apply? (Choose two.)

A. network file share browsing
B. persistent password caching
C. read-write access
D. source IP address role restriction

Answer: A, C

Question: 12

Which action must you perform to use CRLs to validate user certificates?

https://www.certkillers.net

A. Configure an OCSP responder.
B. Validate a trusted server CA.
C. Import as a trusted client the root certificate of the CA issuing the CRL.
