# M2170-741

*IBM i2 Intelligence Sales Mastery Test v2*

**Answer:** A

**QUESTION:** 36
How can the IBM Counter Fraud Management solution add significant value to an organization's fraud detection and investigation system?

A. Reputational risk, compliance and legal obligations and revenue loss can all be addressed by the IBM Counter Fraud Managementsolution.
B. Output from the IBM Counter Fraud Management solution help organizations to understand their exposure to issues such as non-compliance and cyber threat.
C. IBM delivers an end to end solution for fraud detection and investigation, often replacing the largely manual, rules based systems in place with a more efficient and cost effective option.
D. All of the above

**Answer:** D

**Explanation:**
*Fraud and financial crimes trigger financial losses, cause significant operational costs, erode consumer confidence, destroys brand image and drains the potential for core business innovation.
A new, holistic approach is needed to not only handle, but proactively anticipate and respond to threats.
*IBM Counter Fraud Management is a new, next generation offering, delivered as a single, integrated solution, that addresses all phases of enterprise counter fraud measures.

Detect. Respond. Investigate. Discover

**QUESTION:** 37
Which of the following is not a key part of thei2 value proposition for financial services?

A. Built on open standards, allowing easy integration with legacy systems and other IBM offerings
B. Makes the existing case management team significantly more effective and efficient, thereby contributing to quick ROI.
C. Scales on an affordable and secure basis
D. Complements existing fraud detection capabilities

**Answer:** C

**QUESTION:** 38
Multiple visualization options facilitate deeper insight to information. Visualizations available in Analyst's Notebook include:

A. Timeline, link analysis and social network analysis
B. Dashboard and bar chart
C. Scatter plot, link analysis and data flow diagram
D. Histogram, tree map and table

**Answer:** A

**Explanation:**
* Understand the critical timeline of events or patterns within criminal activities using powerful temporal analysis tools.
*Quickly highlight key individuals and relationships and their connections to key events with core link analysis capabilities.
*Identify key individuals within target networks more quickly using social network analysis

**QUESTION:** 39
What are the core competencies of the i2 Intelligence Analysis Portfolio?

A. Data collection, warehousing, aggregation and reporting
B. Automatic data ingest, alerting, intelligence evaluation, reporting
C. Information fusion, intelligence production, intelligence store, operational usage
D. None of the above

**Answer:** C

**Explanation:**
i2 Intelligence Analysis Platform helps organizations to:
* obtain greater insight and produce richer intelligence production by fusing data from multiple disparate sources into a centralized aggregated view.
*Support collaboration by storing a user's work-in-progress comments alongside information and intelligence products as they develop over time.
*The platform helps facilitate and support operational analysis, improving situational awareness and providing faster, more informed decision making across and inside organizations
**QUESTION:** 40
