# Version: 6.0

---

**Question: 1**

---

An administrator has been alerted to a VM that has high I/O latency and wants to determine if there are any other factors, such as insufficient network or memory resources that correlate, as part of a troubleshooting process.

Which type of chart should the administrator create to allow all relevant data to be easily exported to CSV for later analysis?

- A. A VM entity chart with each of the relevant metrics.
- B. A cluster metric chart for each of the relevant metrics
- C. A cluster entity chart with each of the relevant metrics
- D. A VM metric chart for each of the relevant metrics

---

**Answer: D**

---

---

**Question: 2**

---

How should an administrator correct an SSL error when connecting to a Nutanix cluster?

- A. Add the SSL certificate to the workstation's trusted people store
- B. Create a new self-signed certificate for the cluster with a 4096 bit key
- C. Create a new SSL certificate for the cluster signed by an AD certificate authority
- D. Add the SSL certificate to an AD group policy applied to all computer objects

---

**Answer: C**

---

---

**Question: 3**

---

A node with Erasure Coding fails.  
What is the impact?

- A. The node stops utilizing Erasure Coding.
- B. Potentially increased amount of data stored in the SSD tier.
- C. Increased Controller VM CPU Load.
- D. AQS unable to do deduplication during the Erasure Coding failure.

---

**Answer: C**

---

---

**Question: 4**

---

A configuration is single domain, single forest, and does not use SSL.  
Which port number should be used to configure LDAP?

- A. 389
- B. 3269
- C. 636
- D. 3268

---

**Answer: A**

---

---

**Question: 5**

---

The Linux administration team has requested access rights to any current or future Linux VM in the environment

What entity should be selected when assigning this new role?

- A. Image
- B. AHV Cluster
- C. Category
- D. Project

---

**Answer: D**

---

---

**Question: 6**

---

HOTSPOT

What is the proper sequence to perform a one-click upgrade to a Nutanix cluster?

Item instructions: For each procedure, indicate the order in which that procedure must take place to meet the item requirements. Not all procedures are valid. Identify any invalid procedures using the drop-down option.

**Answer Area**

Procedure	Step
Select the Gear icon at top right of the page	<div style="border: 1px solid gray; padding: 2px;">                     ▼                      Step 1                      Step 2                      Step 3                      Step 4                      Step 5                      Step 6                      Invalid Step                 </div>
Select the component to upgrade	<div style="border: 1px solid gray; padding: 2px;">                     ▼                      Step 1                      Step 2                      Step 3                      Step 4                      Step 5                      Step 6                      Invalid Step                 </div>
Once the download completes, select Upgrade	<div style="border: 1px solid gray; padding: 2px;">                     ▼                      Step 1                      Step 2                      Step 3                      Step 4                      Step 5                      Step 6                      Invalid Step                 </div>
Log into Prism Central	<div style="border: 1px solid gray; padding: 2px;">                     ▼                      Step 1                      Step 2                      Step 3                      Step 4                      Step 5                      Step 6                      Invalid Step                 </div>
Select the User login name at the top right of the page	<div style="border: 1px solid gray; padding: 2px;">                     ▼                      Step 1                      Step 2                      Step 3                      Step 4                      Step 5                      Step 6                      Invalid Step                 </div>
On the left, select Upgrade Prism Central	<div style="border: 1px solid gray; padding: 2px;">                     ▼                      Step 1                      Step 2                      Step 3                      Step 4                      Step 5                      Step 6                      Invalid Step                 </div>
Click Download	<div style="border: 1px solid gray; padding: 2px;">                     ▼                      Step 1                      Step 2                      Step 3                      Step 4                      Step 5                      Step 6                      Invalid Step                 </div>
On the left under Settings, select Upgrade Software	<div style="border: 1px solid gray; padding: 2px;">                     ▼                      Step 1                      Step 2                      Step 3                      Step 4                      Step 5                      Step 6                      Invalid Step                 </div>
Log in to Prism Element	<div style="border: 1px solid gray; padding: 2px;">                     ▼                      Step 1                      Step 2                      Step 3                      Step 4                      Step 5                      Step 6                      Invalid Step                 </div>

---

**Answer:**

---

Step 1 ---> Login into Prism Element.

Step 2 ---> Select the Gear Icon at top right of the page.

Step 3 ---> Click Upgrade Software.

Step 4 ---> Select the component to upgrade.

Step 5 ---> Click download.

Step 6 ---> Once the download completes, select upgrade.

Invalid:-

1 - Select Prism Central.

2 - Select user login.

3 - On left select upgrade Prism Central.

---

**Question: 7**

---

A customer wants to isolate a group of VMs within their Nutanix environment for security reasons. The customer creates a VM with two NICs to act as a firewall and installs the appropriate software and certificates.

However, no one from the outside can access the application.

What is the likely cause of this problem?

- A. A shared volume group must be used by all isolated VMs
- B. More than one NIC cannot be added to a VM
- C. One of the NICs needs to be configured on the internal VLAN
- D. Wireshark is installed on the NAT VM

---

**Answer: C**

---

---

**Question: 8**

---

Which two methods are available when migrating a VM from a legacy 3-tier solution using VMware ESXi to AHV? (Choose two.)

- A. Deploy the Move appliance.
- B. Use Cross-Hypervisor DR.

- C. Import the .vmdk into the Image Service.
- D. Use shared nothing live migration.

---

**Answer: A, B**

---

---

**Question: 9**

---

A customer has a 24-node cluster with all containers configured with RF3. Two different nodes have incurred a simultaneous HDD failure.

What is the result?

- A. The cluster runs in a degraded state until the failed drives are replaced and the data has been restored to three replicas.
- B. Sixty minutes after the failures a rebuild of the lost data can remaining HDDs begins to restore to three replicas.
- C. The VMs with data on those drives crash, and an HA event occurs, restarting them on a remaining healthy node.
- D. The Nutanix cluster recognizes the failures and immediately begins to rebuild lost data to three replicas.

---

**Answer: D**

---

---

**Question: 10**

---

An Administrator is working on a one-node ROBO cluster configurations  
Which statement is true for this configuration?

- A. Witness vm required to break cluster quorum
- B. Supported hardware is NX-1175-G5 and G6
- C. witness vm should be 8vcp and 20gb ram
- D. the minimum RPO 8 hours required

---

**Answer: B**

---
