#### **Question: 1**

One of the important requirements of Pega Web Mashup is to ensure that the same-origin policy is following. From the following options, select two valid configurations. (Choose TWO)

Configuration	Web application page URL	PEGA Gadget URL https://www.pega.com/MyWebApp/gadgetA.html	
A	https://www.pega.com/MyWebApp/home.html		
в	https://www.pega.com/MyWebApp/home.html	http://www.pega.com/MyWebApp/gadgetA.html	
с	https://www.pega.com/MyWebApp/home.html https://www.pega.com/MyGadgets/gadgetA.		
D	https://www.pega.com/MyWebApp/home.html	https://www.pega.com:7878/MyWebApp/gadgetA.htr	

#### A. Configuration A

- B. Configuration B
- C. Configuration C
- D. Configuration D

Answer: A,C

#### **Question: 2**

Finco corporation uses pega to perform the majority of the mortgage underwriting tasks. After gathering the initial data, the mortgage case pauses and waits for the credit report The credit report is a separate case, located in the same class group as the mortgage case, and typically resolves within 24 hours. After the credit report is complete, the application routes the mortgage case to the specialist.

Which of the following options is the optimal solution to route the mortgage case to the specialist when the credit report is complete?

- A. Add a wait shape to the mortgage flow with a case dependency to advance the mortgage flow to the nextassignment when the credit report case is resolved.
- B. Insert a credit report assignment in the mortgage flow with a SLA to check the status of the credit reportcase and call the ResumeFlow activity when the credit report case completes.
- C. Include a split join shape in the mortgage flow to include the credit report flow. Use the All option on the split join shape to ensure the credit report is complete before routing to the specialist.
- D. Modify the credit report flow to move the mortgage case to the specialist. The application routes theassignment to the specialist with the least amount of work.

Answer: A

#### **Question: 3**

What two recommendations do you provide to the development team to ensure the performance of the Pega application does not degrade over tune? (Choose Two)

- A. Increase subcase urgency based on ClaimUnit type prior to the workbasket assignment. Specialize theService Level Rule by ClaimUnit case type.
- B. When the SLA's goal is reached, have an escalation Activity adjust the claim urgency in proportion to the average time to resolve ClaimUnit cases.
- C. Implement a GetNextWork solution based on case deadline and ClaimUnit type. Specialist the serviceLevel Rule by ClaimUnity case type.
- D. Store the average time to complete sub case types in a table. Customize GetNextWork list view byjoining to this table and use this value for ordering the results.

Answer: B

#### **Question: 4**

What two recommendations do you provide to the development team to ensure the performance of the Pega application does not degrade over tune? (Choose Two)

- A. Add indexes to all columns.
- B. Purge workparty UIU index tables periodically.
- C. Schedule scripts to maintain frequently fragmented tables.
- D. Purge and/or archive records based on the company's record retention policy.

Answer: C,D

#### **Question: 5**

What two recommendations do you provide to the development team to ensure the performance of the Pega application does not degrade over time? (Choose Two)

- A. Add indexes to all columns.
- B. Purge workparty UUI index tables periodically.
- C. Schedule scripts to maintain frequently fragmented tables.

D. Purge and/or archive records based on the company's record retention policy.

Answer: C,D

#### **Question: 6**

In the Answer Area, drag each use case on the left to the appropriate locking strategy on the right.

Subcase data entry is	Answer Area		
completely independent of other users		Use Case	Locking Strate
Data entry may only be performed on one subcase at a time			Do not lock paren
A property value restricts updates to a single case at a time			Default locking
Agent updates to subcases are never restricted			Customize lock string
			Optimistic locking
			Answer:
Subcase data entry is	Answer Area		
completely independent of other users		<u>Use Case</u>	Locking Strategy
Data entry may only be performed on one subcase at a time		Subcase data entry is completely independent of other users	Do not lock parent
A property value restricts updates to a single case at a time		Data entry may only be performed on one subcase at a time	Default locking
Agent updates to subcases are never restricted		A property value restricts updates to a single case at a time	Customize lock string
		Agent updates to subcases	Optimistic locking

are never restricted

#### **Question: 7**

What two features do activities and functions share? (Choose Two)

- A. Ability to be circumstanced
- B. Ability to be parameterized
- C. Ability to be called directly from a decision table
- D. Ability to be versioned
