Question: 1

Why is it important for a tester to be convincing and persistent when reporting a defect?

- A. it benefits the product quality
- B. to make sure all defects are resolved
- C. to convince a client to not go live

Answer: A

Question: 2

See the specification below:

```
IF      A OR B
THEN   Error message
ELSE
      IF      C AND D
      THEN   Y=100
      ENDIF
ENDIF
```

The test design technique Elementary Comparison Test has been used with coverage type decision points with modified condition/decision coverage. Which is the corresponding graph?

- A. 1
- B. 2
- C. 3
- D. 4

Answer: C

Question: 3

What is coverage based testing?

- A. a way to create a full set of test cases to cover all risks
- B. a way to derive test situations based on an analysis of the test basis and selected coverage types
- C. a way in which the tester is free to design test cases in advance or to create them during test execution
- D. a way in which a virtual group of testers across the world (a 'crowd') is involved in testing

Answer: B
