Answer: C

Question: 10

DRAG DROP

Click and drag three objects from the list that can be managed by the cvm service group in a Cluster File System (CFS) storage cluster to the right.

Object

**cvm service group manageable
(in no particular order)**

- Shared disk groups
- Agent framework
- I/O fencing
- Cluster file systems
- CFS infrastructure
- GAB ports

Answer:

Object

**cvm service group manageable
(in no particular order)**

Shared disk groups

Agent framework

I/O fencing

Cluster file systems

CFS infrastructure

GAB ports

Shared disk groups

I/O fencing

Cluster file systems

GAB ports
